CPSC:480 SWE Team Project Survey

Each team member should fill one of these out and submit on Brightspace within 24 hours after each project. Please contact the instructor at any time with project-related questions or concerns.

1) What was your biggest contribution to this project? Did you meet teammates' expectations?

2) What engineering skills did you apply on this project and what did you learn?

3) How do you feel this project contributed to your preparation for a software engineering role?

4) Were the project directions clear, reasonable, and well-scoped? Would you make any changes?

5) Do you believe your team met expectations? Are you confident in meeting them for project 4?

6) How do you feel about the team's project, results, and successful performance overall?

7) Who contributed the most to the project? Who demonstrated leadership & management skills?

8) Did everyone's contributions meet expectations? Do you have confidence in your teammates?

9) On the back, please list any comments on the team, project, or assignment you'd like to share.
